### OUR WASHINGTON LETTER.

WASHINGTON, D. C., Dec. 15, 1890. EDITOR RENO JOURNAL: "More modes more money," is the cry of the peop! which rings continuously, ever growing louder and louder, in the East of Congressmen, and the number of Congressmen who believe that it is absolutely necessary to take some steps at this session of Congress to largely increase the amount of money in circulation is constantly growing. Some propose accomplishing this result it one way or the other.

More bills for the free coinage of silver have already been introduced, since the beginning of this session, than were ever known to be introduced in a whole session upon any one subject. There is the bill of Mr. Townsend, of Colorado, who wants the unit value in the United States shall be the dollar, and the same may be coined of four hundred and twelve and one-hal grains of standard silver or twenty-five and eight tenths grains of standard gold, and the said coins shall be legal tender for all debts, public and private. That hereafted any owner of silver or gold bullion may deposit the same at any mint of the United States to be formed into standard dollars or bare for his benefit and without charge but it shall be lawful to refuse any deposit of less value than one hundred dollars or any bullion so base as to be ausuitable for the operations of the mint.

SEC. 2. That any holder of the coin authorized by this act may deposit the same with the Treasurer or any assistant Treasurer of the United States in sums not less than ten deliars and receive therefor certificates corresponding with the denominations of the United States notes. The coin deposited for or representing the certificates shall be retained in the Treasury for the payment of the same on demand Baid certificates shall be legal tender for all debts, pablic and private, and when received for customs, taxes, or public dues may be reissued.

SEC. 3. That the certificates provided for in the second section of this act shall he of denominations of not less than one nor more than one hundred dollars, and such certificates shall be redeemable in coin of standard value. A sufficient sum to carry out the provisions of this act is hereby appropriated out of any money in the Treasury not otherwise appropriated.

SEC. 4. That the owners of bullion deposited for coinage shall have the option to receive coin or its equivalent in the certificates provided for in this act, and such bullion shall be subsequently coined.

SEC. 5. This act shall take effect thirty days from and after its passage.

Sec. S. That so much of the act ap proved July tourteenth, eighteen hundred and ninety, entitled "An act directing the purchase of silver bullion and the issue of Treasury notes thereon, and for other purposes," as requires the Secretary of the Treasury to purchase silver builton and to issue in payment therefor Treasury notes, is heroby repealed.

SEC. 7. This this act shall take effect thirty days from and after its passage.

Mr. Pickler, of South Dakota, also introduced a bill which is almost similar to that of Mr. Townsend. Mr. Clements, of Georgia, also introduced a bill that differs somewhat to the others, particularly in sections 2 and 4.

SEC. 2. That the provision of section three, of "An Act to authorize the colonge of the standard silver dollar and to restore its legal tender character," which became a law February twenty-sighth, sighteen hundred and seventy-eight, is hereby made applicable to the coloage in this Act provided for.

Szc. 3. That the certificates provided for in the second section of this Act shall be of denominations of not less than one nor more than one hundred dollars, and such certificates shall be redsemable in coin of standard value. A sufficient sum to carry out the provisions of this Act is hereby appropriated out of any money in the Treasury not otherwise appropriated.

SEC. 4. That the certificates provided for in this Act and all silver and gold certificates already issued shall be receivable for all taxes and dues to the United States of every description, and shall be a legal touder for the payment of all debts, public and private.

Sec 5. That the owners of bullion deposited for coinage shall have the option to receive coin or its equivalent in the certifi cates provided for in this Act, and such bullion shall be subsequently coined.

Then comes Mr. Bland, of Missouri, who has been a hard worker for silver with the

following bill: SEC. 1. All holders of silver bullion of the value of fifty dollars or more, stand and fineness, shall be entitled to have the samcoined into standard silver dollars of fouhundred and twelve and a half grains trop of standard silver to the dollar, upon like terms and conditions as gold is now coined for private holders; that the standard sliver dollar heretofore coined and herein prowided for shall be the unit of account and standard of value in like manner as now provided for the gold doller, and shall be a legal tender for all debts, public and pri-

SEC. 2. That so much of the provisious of the act of February twenty-eighth, eighteen hundred and seventy-eight, endollars, shall be applicable to the coin redemption of the Treasury notes herein

of February twenty-eight, eighteen hun- arising from such coinage shall be acred and seventy eight, as provides for the prchase of silver bullion to be coined contbly into standard selver dollars be, and he same is hereby, repealed.

SEC. 3. That the Secretary of the Freasury is hereby authorized to adopt anch rules and regulations as may be necnces the following:

That all laws or parts of laws which mit the coinage of the silver dollar be, put forward, which is as follows: and the same are hereby, repealed,

Then comes our Bartine with a very dly estile the much vexed question of our

Be it enacted by the Senate and House of America in Congress assembled:

SECTION 1. That on and after the first bullion at any mint of the United States, in quantities of not less than one hundred ounces, and receive therefor coin or coin bree hundred and seventy-one and one- the coinage of silver bullion into coin of a fourth grains of pure silver contained in | nominal value exceeding the cost thereof, anch bullion; but the bullion so received denominated "the silver profit fund." shall be subject to the requirements of existing laws and mint regulations as regards fineness and the amount of charges or deductions, if any, to be made.

SEC. 2. That no coin certificate issued under the provisions of this act shall be of greater denomination than five hundred lollars or less than one dollar, and at least one-half of the amount shall be in denominations less than fifty dollars, and such certificates shall be redeemable in gold or silver coin at the option of the Govern- sembled. That section one of the act of ment.

SEC. 3. That of the buillion deposited ounces and as much more as may be neces. Treasury notes thereog, and for other pursary, shall be coined monthly into standand dollars of four hundred and twelve and amended so as to read as follows: "That one-half grains of standard silver, and the | the Secretary of the Treasury is hereby distandard dollar heretofore coined and here- rected to purchase, from time to time, all after to be coined shall be the unit of ac. the silver ballion that may be offered, at bount and the standard of value in like the market price thereof, not exceed ing one manner as is now provided by law for the dollar for three hundred and seventy-one gold dollar, and, together with the coin and twenty-five bundredths grains of pure certificates herein provided for shall be a silver, and to issue in payment for such vate, except in the case of contracts heretofore made in which a different mode of Secretary of the Treasury, in such form payment has been expressly stipulated, and of such denominations, not less than and when such certificates are received by the Government of the United States for public dues they shall be relesued: Provided, That nothing in this Act contained of this act is hereby appropriated out of shall be so construed as to affect in any any money in the Treasury not otherwise wey the legal tender quality of any Treasary note, coin, or bullion certificate i-sued under any other law of the United States: And provided further. That the coin and ballion certificates issued under this or any other Act in actual disculation shall never exceed the amount of gold and silver coin | tion, it will be next to folly of trying to and bullion held by the Treasury of the stave off a free coinness of silver. All things United States.

SEC. 4. That a sum sufficient to carry out the provisions of this Act is hereby appropriated out of any money in the Pressury not otherwise appropriated.

SEC. 5. That all ac's and paris of Acts aconsistent with the provisions of this Act ire hereby repealed, such repeal to take effect on the first day of July, anno Domini eighteen hundred and ninety-one.

Free coinage bills also introduced by Meesrs. Williams, of Illinois, of the House of Representatives, Teller, of Colorado, of the U.S. Senate, Plumb, of Kansas, U.S. Senate, Taylor, of Illinois, of whose bill I wrote about in a previous letter. Heard, of Missouri, introduced two bills on Deambar 4th: oug 'to declars the unit of value in the United States, and to provide free coinage for a standard dollar," and ne "to provide for the free coinage of gold and silver bullion and for other purposes."

Senator Stewart on December 4th also introduced a free coinage bill which was referred to the Committee on Finance, of which Senator J. P. Jones is a member. and where he is very strong. The bill reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that the first section of the act entitled "An act directing the purchase of silver bullion and the issue of Treasury notes thereon. and for other purposes," approved July fourteenth, eighteen hundred and ninety, be, and the same is hereby, amended so as

to read as follows: market price thereof, not exceeding one showed that he had made the character a lollar for three hundred and seventy-one ours silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States, to be prepared by the Secretary of the Treasury in such form and of such denomination, not less than one dollar nor more than one thousand dollars, as he may prescribe; and a merits of each actor, but can truthfully say sum sufficient to carry into effect the pro- they are individually and collectively far out of any money in the Treasury not otherwise appropriated."

SEC. 2. That section three of said act is hereby amended so as to tead as follows:

"SEC. 3. That the Secretary of the Treesory shall each month coin at least and other precious stones and the latest two million ounces of silver builion titled . An act to authorize the coinage of purchased under the provisions of this window of Fredrick, the jeweler, which the standard silver dollar and restore its act into standard dollars, and he shall bestows great credit upon Mr. Fredrick as legal-tender character," as provides for is- further onto as much more of such ballion a window decorator. suing certificates on the deposit of silver as may be necessary to provide for the

erein named; and so much of the said act provided for, and any gain or seigniorage counted for and paid into the Treasury." On Dec. 6th Mr. Tucker, by request, introduced a free coinage bill and in the Senate Mr. John Sherman, of Ohio, introduced

a bill authorizing the recoinage of aubaidsary coins of the United States. The Senator has been such a strong opestry to enforce the provisions of this act | ponent of silver f r so many years past, Mr. Wheeler, of Alabama, also intro- that I append a copy of his bill to satisfy these of your readers that are curious to know the kind of bill John Shermen has

That the Secretary of the Treasury be and is hereby authorized to cause the subgood bill, which, if suggeted, will undoubt- sidincy silver coins of the United States now in, or which may hereafter be received in the Treasury and sub-treasuries of the United States, which are abraded, worn, Representatives of the United States of mutilated, defaced, or otherwise unfit for e reulation, or of denominations for which there is no current demand, to be recoined my of July, A. D. eighteen hundred and at the Mints of the United States into such ninety-one, any person may deposit silver denominations of silver coins now authorized by law as may be required to meet the demand therefor.

Sec. 2. That the loss incident to the

Last but not least comes Mr. Farwell, of Illinois, who on December 10th introduced the following:

A bill to amend an act entitled "An act directing the purchase of silver bullion and the issue of Treasury notes theroop, and for other purposes," approved July fourteenth, eighteen hundred and ninety.

SECTION 1. Be it enacted by the Senato and House of Representatives of the United States of America in Congress as-July fourteenth, eighteen hundred and ninety, entitled "Au act directing the purs herein provided at least two million chase of silver bullion and the issue of poses," be, and the same hereby is, gal tender for all debts, public and pri purchases of silver bullion Treasury notes of the Unite ! States to be prepared by the one dollar nor more than one thousand dollars, as he may prescribe, and a sum sufficient to carry into effect the provisions appropriated."

Since the beginning of the session filteen free coinage bills have been introduced, you might say one for every day to date, and judging by this and the sentiment of the people as expressed at the last clee considered, it is bardly to be doubted that a free coinage bill will be passed this P. V. R.

If the discovery lately announced by lawyer Emanual, of South Carolina, be true, that a process has been found whereby alluminum may be produced for \$2 50 per on, we are on the verge of that long predicted era, the alluminum age. It exceeds the wildest flights of tancy to conceive of what conditions and changes will be brought about whon alluminum becomes as plentiful as iron. When we think of a metal as boautiful as silver, as untarbishable as gold, strong as steel, and light as chalk, one who wants to may go there and brought into general use, we will see it catch them—if they can."—Louisville superseding iron, wood and even stone in Post. navigation will then become practicable; vessels will dot the seas made of alluminum; houses will be built of it, tinware will be replaced by it and radways constructed not of it. The entire world will be stimu'ate i by it into a wonderful era of change and progression. The discovery of a cheup process of working this metal will mark the beginning of the most wonderful age in the history of the world.

### Monday Night, Ingomar.

John S. Lindsay will appear in Ingomar at McKissick's Opera House to-morrow night. O' this company the Contra Costa Democrat says: "On Monday evening we had the ; leasure of seeing the John S. Lindsay Company in the romantic drama, "Ingomar," and must say that we have never seen a better traveling company in this State-und we have witnessed a few "That the Secretary of the Treasury is performances in our time. Mr. Lindsay is hereby directed to purchase, from time to an actor of more than usual power, and his time, all silver builion offered, at the rendition of Ingomer, the barbarian, careful study, and both in his acting and and twenty-five one-hundredths grains of dress, faithfully portrayed the modern conception of what the ancient barbarians were. He was ably assisted by his daughter, Miss Luclin Lindsay, as Parthenia. This young lady is a natural actress, and sustains the part with great effectiveness. We have not the space to give the respective visions of this act is hereby appropriated superior to the general run of traveling actors. We can cheerfully recommend the company as one worth sering."

A BARGAIN IN CRABS.

How Dr. Tompkins Found Bait Enough

to Fish for Bass All His Life. "I like to do a little black bass fishing now and then," said Dr. Tompkins, of Penn Yan, "but I'm not one of those enthusiastic people who can't get along without it. The other day, though, friend of mine came in with a fine catch of bass, and the sight of them rather put me in the humor of going out and getting a lot myself.

"What did you catch 'em with?" asked my friend,

"Crabs," he said. "We call crawfish 'crabs' in Penn Yan. I had heard before that crabs were good bait for black bass, and thinking that I might get some fun out of them as well as anybody else I went over to Lake Keuka outlet to bait. . banged around in the creek for three hours turning up stones and slopping about in the water knee deep, and succeeded in capturing five little crabs.

"'Well,' I said to myself, 'that isn't a very big lot of bait to start on a day's fishing with, but I guess I won't have any trouble getting two or three nice bass, anyhow.'

certificates, at the option of the Govern-recoinage of such uncurrent silver coins I met a small boy. He was a Penn Yan small boy and he had nerve, and he hailed me familiarly and said:

" 'Hullo, mister. What you after?" "I told him I was gathering crabs for bait, but that they were powerful scarce "'What'll you give me to get you

some?' inquired the small boy, "I thought it would be a nice thing to have a couple of dozen or so of crabs, for I'd want to be going out after more base the next day, and knowing what a tough and tedious time I'd had getting only five, I thought I'd make it worth the boy's while spending a day tugging and sweating among the stones, and so I said Pd

give him five cents apiece for crabs.
"'How many'll I git you?' he asked "'Oh, all you can,' I replied, feeling that all he could get would certainly be few enough.

"'All right!' he said, and I went un the lake a mile or so with my five crabs to get some bass for my supper. I fished all the rest of the day and never got as much as a bite. It was supper time when I pulled for home.

"'The next man that says crabs to me,' I said to myself, 'it won't go well with.

"After supper I was sitting in my office feeling a little sore yet over my day's fishing, when a knock came to the door. I opened it, and there stood the small boy I had hired to gather crabs for me. I had forgotten all about him.
"'Hullo, mister!" he said. 'I get

some! "Crabs were the very last thing I was

hankering after just then, but of course a bargain was a bargain.
"'All right,' I said. 'Fetch 'em in.'

"The small boy stepped aside and immediately appeared again, accompanied by another small boy. Each boy lugged in a big tobacco pail. Each pail was alled with crabs.

"'Great heavens!' I exclaimed. 'How

many haye you got?'
"'There's two thousan', mister,' said the small boy I had bargained with. 'But we'd 'a' got a lot more if the pails had been bigger.'

"Two thousand crabs! If you'll take the trouble to figure on that you'll find that at five cents apiece 2,000 crabs will come to just an even \$100, and that was the price per crab I had bound myself to pay. While those boys had nerve I've an idea that their ideas of financiering were crude, for after some exceedingly anxious and apprehensive argument with them I induced them to compromise on n basis of labor by the day, and even then they made such a good thing out of me that the next man who mentions crabs to me will stand an excellent chance of having the price of that day's work taken out of his hide. I returned those crabs to Kcuka outlet, and any

### An Engineer Who Slept.

The writer asked an old engineer the other day if he had ever while running a locomotive yielded to sleep. "No-well, yes," he answered. "That is, it wasn't a sleep, just a nod; a sudden stopning of everything and then an awaken ing with a start. I was so dead beat that it seemed to me as if a thousand pound weight was pulling my eyelids down. Of course I fought it off, but for just one second I gave in once. I was looking ahead when suddenly I felt my head go down with a jerk. I don't think that that sleep lasted one-tenth of a second. but every sensation left my brain. It was as if it flashed out and then back again. It is a sorry thing," he added grimly, "when engineers go to sleep in their cabs."—New York Tribune.

Mixed in Her Lines. A friend's little 4-year-old daughter went to Sunday school a few Sundays ago, and was very much impressed by exercises. She remembered bits of some of the hymns, and for some days never tired of singing them over and over again. She was a trifle irregular in some of her "lines," however; one well known hymn she began: There's a land that is fairer by day,

And by faith we may see it afire Her father, who is a Wall street man. but a good churchman withal, hopes she is mistaken.—New York Star.

How a Hypocrite Got Cotton Hands. One of our Fork farmers was so anxious to get his cotton picked that after riding around the neighborhood several times hunting hands without success he went to a negro camp meeting and appealed to them in many ways, but with-out success. At last he went up to be prayed for, put a nickel in the missionary box, and afterward got plenty of pickers.—Orangeburg (S. C.) Enterprise.

It has been suggested that the study of the influence of diet and habit upon the color of hair in different nations of men may cause discoveries by which the color of the hair in the human race may be modified by judicious treatment.

Friday afternoon John Inglis, while working in the new tunnel of the Occidental mine at Virginia City, suffered a fracture of the left leg below the knee joint. The accident was caused by the caving of a small quantity of rocks and dirt from the roof of the tunnel.

### Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? It so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its vatue is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cares dysentery and diarrhosa, regulates the stomach and bowels, cures wind colic, softens the gume, reduces inflamation, and gives tone and energy to the whole system. Mrs. Winslow's Southing Syrup for Children Teeth ing is pleasant to the taste, and is the prescription of one of the oldest and beat temale Aursee and physicians in the Lake Valley and Reno, died at San Fran-United States, and is for sale by all druggists throughout the world. Price 25 cents feb. 21-swt-'y

Rewarded

Everybody is who go and inspect the Christmas crockery and glassware, vases, gift-cups and painted china at Lange & Schmitt's. Sold at cost until New Year's EVANS—In San Francisco, Dec. 19, 1890, A. B. Evans, formerly of Reno, aged 53 years, 8 months and 12 days.

REAL ESTATE.

An Active Market and a Large Sale. The real estate market in Reno is unusually active for this season of the year, and several transfers have taken place this week. Yesterday A. B. Williams sold has bonse and fine grounds to Geo. S. Smith, of Tascarora, for \$9,700, and Mr. Smith is well pleased with his bargain. Jnp. Newmarkor yesterday sold his new house near the Catholic Church to Mr. Cronent, of Eureka, for \$3,100. C. H. Markham, the S. P. agent, has purchased the Grant place adjoining Geo. H. Tayla's residence, for \$2,500. Several other trades have also been made.

The State University.

ED. JOURNAL: Will you kindly publish the following answer to the article that

appeared in your paper? Through some mistate the article upon University affairs was based upon a finau-Reno will soon be the largest and best cial foundation that is not sound. This, I think, is clearly shown by comparing a few figures taken from government reports with those given in the article in question. In the first place the comparison between the cost of tuition at Harvard and the amount that it costs the State of Nevada to support its University is misleading It we compare the cost of tuition we find that at Harvard it amounts to \$150 and at this University it is free; but, when we compare the respective amounts that it costs the managers of each institution, we find quite a difference in favor of Nevada. At To-day Sig. Sitcoi at New York will have Harvard it costs the management exactly \$544 12 to furnish instruction for each student per year; while in Nevada it costs the State only \$166 67 per stadent. In this statement I include the entire Mr. Grant, who has sold his residence to cost of the new building, whereas C. H. Markham, intends removing to Sac- the interest only should be considered. Calculating upon this basis and adding the interest upon \$20,000, the town yesterday morning, but went East on west of the building, we find that the cost per student is \$106 94. The University of Nevada has not as yet expended any of the money received from the General Government for the running of the institution. In fact the first installment was only received within the last ten days. It has it is true received some indirect aid from the Experiment Station, but this does not cut much of a figure. The University has not received an income of \$30,000 from the General Government, nor will it under the present law ever receive that amount per year. This first \$15,000 is the delayed payment for the year ending June 30, 1890, and the second installment amounting to \$16,000 is now due, but it is for the year ending June 30, 1891. In 1891-2 the income from this source will be \$17,000, and this income will be increased at the rate of \$1,000 per year until it amounts to \$25,-000, which will be the maximum allowed

under the present law. It does not require a knowledge of the subtler principles of mathematics to show General Government will ever amount to over \$30,000 when the maximum is placed at \$25,000, and that amount will not be lake valley on the N. C. & O, to spend the reached until 1990; nor is it likely that the State of Nevada will appropriate the sum Mr. Jas. Brown, who was stricken with of \$20,000 to \$25,000 a year for the runparalysis a short time ago at Lovelocks was | ning expenses of the University. It is true brought in yesterday and will be cared for | that the gross appropriations may amount to this; but after deducting what may be The merchants seem to be afraid to appropriated for actual building expenses, it is very probable that the amount set

about \$10,000 per year In connection with the foregoing these afternoon from Stillwater where she has figures may be of interest. As already been engaged in tenching, to spend the stated it costs Harvard for each student each year \$544 12; Yale, \$403 08; Colonibla, \$202 60; Corne'l, \$285. So much for well endowed institutions; but let an look at these figures showing the average cost at several of the State Universites. Califormia pays per year for each student at B rkeley, \$491 68; Michigan, at Ann Arbor, \$166 41; Ohio, \$249 36; Wisconsin.

It is difficult to estimate what Nevada will pay hereafter but it is not likely that she will pay far from \$150 per stadent, and The Eureka people seem to be getting a this surely is not a had showing where all necessaties are relatively higher than elsewhere in the United States. Respectfully, ROBERT LEWERS.

Gov. Stevenson's Will.

No more testimony will be taken in the Stevenson contested will case in San Francisco. The case will be tried before Judge Rising in Carson. The contestants will endeavor to show that a codicil was attached to the will, giving them the bulk of the estate, and that it was torn off, the fact, they claim, being evinced by a line of mucilage on the second page, and fragments of paper

Al. Evans Dead. Allen B. Evans, well known in Honey cisco Friday night. Al. was a No. 1 man and his death will be deeply deployed by all who knew him. A. A. Evans and Mrs. Mary Arrowsmith went down last night to attend the funeral.

DIED.

TRAINING SCHOOLS FOR NURSES. The Hospitals in New York City Which

. - Market British was a see state of the first of the state of

Fit Men and Women for Nursing. The Bellevue Training School for Nurses wes started on May 1, 1878, with a superintendent and five nurses, having

five wards under their care.
In 1890 the school had 62 pupils and had graduated 345, while as a direct outgrowth of that modest beginning there are three other great schools in New York alone. These are the New York City, which has 64 pupils and has graduated 263; the New York hospital, with 48 pupils and 193 graduates, and Mount Sinai, with 50 pupils and 111 graduates. There are also smaller schools in the city, but, great or small, Bellevue must always be honored as the pioneer. Her graduates are at the head of most of the important schools and hospitals in the country, and have even gone so far afield as England, Italy and China.

The next school to be established was the New York city, which was started by the commissioners of charities and correction in 1877, and is entirely supported by the city. Until 1889 it was known as the Charity Hospital school, because it began there, but as it grew its work spread, until the old name was misleading and had to be changed.

It is now the largest and in some re spects the most important of all the schools, as it rurses five different hospitals—Charity and Maternity on Black-well's Island, the Infants' hospital on Randall's Island, Couvernour, at Gouverneur Slip, and Harlem, at the foot of East One Hundred and Twentieth street, the two last being accident or emergency hospitals, while at Charity the cases are largely chronic. Besides the pupils of the school there are thirty-two perma nent trained nurses at Charity and Randall's Island, making nearly a hundred in all, for whom the superintendent is directly responsible, and over whom she has full authority. The other schools in the city are supported from the funds of the hespitals which they nurse .- Mrs Frederick Rhinelander Jones in Scrib-

Fish with Brass Labels.

If any one engaged in sea fishing should capture fish with brass labels tied to their tails with aluminum wire or a black sill cord an explanation will no doubt be somewhat eagerly desired. There are hundreds of fish so treated in the sea, and it need not be concluded that prac tical jokers have been at work. brass label is an indication that the fish wearing it has been in the hands of the grave men of science who are investigating the habits, the food and the growth conditions of fish in Scottish waters. Two objects are served by the label attach-

In the event of the fish being recuptured by any one who will give informa-tion to the scientific cruisers of the Scottish fishery board on the Garland there OYSTERS IN EVERY STYLE will be something known about its migratory habits. Its rate of growth in a state of freedom may also be investigated. It might be thought that the charce of meeting with these labeled fish again would be very small, but it appears that the Garland cruisers themselves have recaptured 24 per cent. of the plaice and 18 per cent. of the cod wearing their medals. But only plaice, cod and skate were recaptured. The experiments are to be continued on a large scale. They do not interfere with the health of the fish, which when recaught are plump and in good condition,-London Illustrated

John Is the Older.

Among a certain coterie in this city more or less speculation was a short time since going on concerning the relative ages of Senator Charles B. Farwell and his brother John V., the merchant prince. It was of no use to consult the public records, for they differed and were not reliable. And as John V. simply shook his head and smiled in er to inopiries on the sr as the senator when in Washington declined to express himself in writing, the individuals interested were compelled to let their thirst for knowledge continue unslakened until the latter should return. When Wo did return he was ill. but that was no obstacle, and upon gaining his presence the committee put the question to him. The senator looked at them for a moment, raised himself or his elbow and replied in feeble tones:

"I was born first, but John is the older."

Then he lay down on his pillow, turned over, and the committee, bursting with a plethora of information, withdrew.-Chicago Herald.

Wealthy.

A prominent citizen of St. Paul was in Minneapolis and met a former acquaintance whose ordinary condition was what is known as impecunious. This time, however, his face was fairly beaming. "How are you" he asked in a cheerful

bass voice as he extended his hand to the

man from St. Paul.

"First rate. How are you?"
"Splendid! Do you know"—here he dropped his voice to a confidential key -"I've been given the use for life of a half million dollar estate over on Nicollet avenue?

"You have?" asked the other man in astonishment.
"Yes; the public library."—St. Paul

Pioneer-Press.

Walt Whitman's Humor.

Walt Whitman is popularly thought to have no sense of humor, but one day a young man dropped in upon him at his humble home in Camden, N. J., introduced himself as a poet, and begged to be allowed permission to read selections from a bundle of manuscripts which he carried. "No, thank you," said Whitman, courteously but firmly, "I have been paralyzed twice."—San Francisco Argonaut.

To Lubricate His Words. Miss De Gimp (looking through the samples of a drummer for a material house)—What do you carry this little oil can for?

Drummer-I wear that under my tongue when I tackle a rough customer. -Jewelers' Weekly.

# 250 Beautiful Lots For Sale!

CHANCE FOR AN INVESTMENT AND A HOME A RARE

## THE MOST LOVELY PORTION OF RENO.

Facing the Truckee -The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprletor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the fract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the Lighest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild Is the Educational Center of Ne- and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas Reno are lighted by elec-

## RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of Railroad running south, and of Railroad running north. It Reno's geographical position Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$200,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE Journal and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at Is Supported by the Richest the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.
